Sponsorship

Settling into your new location and your new unit takes time. [Plan My Move](#) is designed to assist you with information about your new location. Complimenting Plan My Move each of the military Services has a Sponsorship Program which is very helpful in providing new unit information. Sponsors can make your transition smoother. The purpose of the Sponsorship program is to:

- Provides a sense of belonging
- Ease the transition for inbound service members or civilians and their family members
- Increase productivity
- Reduce culture shock
- Help newcomers make informed decisions
- Cultivate new friendships
- Improve morale

A sponsor is someone from your new unit who is assigned to assist you settling into your new location. You can request a sponsor through your unit, or with help from the Relocation Assistance Program or the Family Center at your new installation.

Your Service will appoint your sponsor in writing. He/she will be the same or close to your rank and the same marital status, if at all possible. This person will be knowledgeable about the local community and the installation; available to assist you and your family for at least two weeks post arrival, and be someone who is positive and outgoing.

A sponsor's duties include:

- Contacting you and your family by letter of introduction or e-mail upon learning of your assignment to the installation.
- Following up with a personal phone call after contact has been made.
- Sending information about the installation/area which you may require, or putting you in touch with the resources on the web and at the installation that provide current, complete and up-to-date information such as those provide by the Relocation Program.
- Answering any questions which you or your family may have, or, again, providing the proper resources to answer those questions.
- Confirm transportation and lodging arrangements.
- Assisting with obtaining a Post Office Box for your mail.
- Meeting you and your family upon arrival.
- Accompanying you to your check in point for the unit.
- Introducing you to the Family Center and lending closet
- Providing essential service locations such as commissary, exchange, gas station, bank.
- Being available when you arrive at your installation to meet you, show you around, and help you through in-processing.

If you have not been assigned a sponsor, or have not been contacted as of yet, request one by contacting your gaining command or unit. If after contacting your new command you find difficulties in obtaining a sponsor, contact your Relocation Assistance Personnel for additional help with your move.

Service specific processes for requesting a Sponsor include:

- **Army and Defense Logistics Agency:** AR 600-8-8 outlines procedures for DA Form 5434, Sponsorship Program Counseling and Information Sheet. Sponsorship is mandatory for first term Soldiers. All Soldiers, private through colonel (excluding those completing advanced individual training (AIT) and those PCSing to long term schools) and civilian employees through grade 15 may participate in the advance arrival sponsorship program. Reactionary Sponsorship is available for individuals arriving at an installation without a sponsor. Contact the gaining unit to request a sponsor.

- **Air Force:** Gaining Unit Commander Support Staff/Military Personnel Element will assign a sponsor upon receipt of assignment notice. Assigned sponsor will then make contact with the inbound member.
- **Navy:** OPNAV INSTRUCTION 1740.3B prescribes procedures regarding Command Sponsor and Indoctrination Programs. This Program is designed to facilitate the adaptation of Sailors and their families into new working and living environments, to minimize the anxiety associated with a Permanent Change of Station (PCS) move, and afford Sailors and their families the greatest opportunity for a successful and productive tour of duty.

Command sponsor and indoctrination responsibilities begin upon receipt of PCS orders and continue until the Sailor has become an integral part of the new command and is fully cognizant of all policies, programs, services, and responsibilities available through the command. Commanding Officers shall establish a Command Indoctrination Program to include the delivery of the Navy Pride and Professionalism training per this instruction. COs should ensure all incoming personnel receive command indoctrination training within 30 days of arrival or within 3 drill weekends.

Enclosures (1) and (2) of OPNAVINST 1740.3B outline responsibilities and provide guidance for these programs. Assistance to local commands regarding the Command Sponsor Program is through the Fleet and Family Support Center (FFSC) Relocation Assistance Program staff.

- **Marine Corps:** Gaining Unit Commander will assign a sponsor on request. Overseas commands should assign a sponsor automatically, however if one is not assigned, send a request to the gaining command. A sample request form is available on our website that can be filled out and sent to the gaining command. See the following [website](#).

Sponsors' responsibilities and abilities to be available will vary from installation to installation, depending upon the priority which the installation and unit commanders give to the program; however, the Services are making the Sponsorship program a priority as research has shown the many benefits of good sponsorship to service, family members and youth.

Youth Sponsorship

The Youth Sponsorship Program depends on the availability of youth who volunteer to become sponsors. The Youth Services topic should explain the Youth Sponsorship program at your new installation, but if it does not answer all of your questions, contact your Relocation Manager to inquire about the program and acquiring a youth sponsor.

Relocation Assistance

Programs and Services

While moving is always stressful, your stress can be drastically reduced if you take full advantage of the information, education, and personal assistance provided to you by the Relocation Program. This is the place to find answers and get referral to other installation resources as well as assistance with in-transit emergencies. The most important thing you can do to ensure a smooth move is to start planning early using the many Relocation Assistance program services and tools available.

Individual PCS Planning -- Most relocation programs offer one-on-one consultation for anyone needing assistance. In particular those making their first military move, first overseas move, or those with challenging and complex situations such as special needs family members or financial problems should call the Relocation Program for an appointment.

Workshops and Briefings -- The classes offered vary from installation to installation but you can generally find classes on buying, selling and renting smart, budgeting and finance, moving with children, general moving preparation and many other moving related topics.

Pre-departure Briefings -- Sometimes called Smooth Move or PCS Briefings, you and your spouse will want to attend for sure. These briefings provide essential information that can prevent you from making uninformed and costly decisions before your move.

Settling-in Services -- These may include welcome wagon services, local area tours with childcare often provided, or basic household items to use until your goods arrive. Overseas arrival services may include introductory language classes and cultural awareness training.

Deployment Support -- The Family Center assists unit family readiness groups and Ombudsman programs during the entire deployment cycle. Emergency Assistance -- From time-to-time emergencies occur while moving, the Relocation Program office has the resources to provide emergency financial assistance and referrals.

Motor Vehicles

Registration & Licensing Requirements

North Carolina State law requires you to have sufficient liability insurance and a valid driver's license in order to operate a vehicle. The term "vehicle" generally includes automobiles, motorcycles, vans, trailers and boats regularly parked or garaged overnight. Further, your vehicle must be properly registered. Even though you are in the Military, you may be required to register your vehicle in-state and obtain an in-state license within a few months of moving. Access complete information on insurance, driver's licensing, and where and how to register your vehicle by visiting the [State Department of Motor Vehicles](#) website.

State Laws

You and your passengers must always wear seatbelts while driving, you will be ticketed and issued heavy fines if seatbelts are not secured. State law requires that all children under 7 years of age and 80 pounds be properly restrained in child seats. Some states also require younger, smaller children to sit in the back seat.

Motorcycles and their operators are subject to special laws. If you own and operate a motorcycle, you must comply with those laws. Visit the State Department of Motor Vehicles website for more information.

Many States and local jurisdictions have strict laws about the use of cell phones and other digital devices while driving. Research these laws on the State Department of Motor Vehicles website. Tickets will be issued and fines assessed for violating these laws. Play it safe and always use a "hands free" device if you must use a cell phone or other PDA while driving. Hands-free devices must be used while operating a motor vehicle on ALL military installations worldwide.

Household Goods - Overview

Arranging Household Goods Shipments

As soon as you are alerted to your upcoming PCS move, you can start getting your house and family ready. Clean up and get rid of junk. Hold a yard sale or take serviceable items you no longer need to a thrift shop or donate to charity. Get important family records together in one place. You can even estimate the weight of your household goods before you visit your transportation office to set up the move. If you are going overseas, you should begin to plan what items you will take in your hold baggage, in your household goods shipment and what might need to go into storage. Remember for overseas assignments electricity is different and houses are generally much smaller and cannot handle large furniture.

Set up an appointment with your transportation office as soon as you have a copy of your PCS orders. The earlier you call or visit your transportation office, the greater your chances of moving on the date you desire. The counselors will explain all your PCS move entitlements in detail. Your first decision is whether to have the government move you or whether to move yourself. There are pros and cons to each type of move. Your counselor will answer all of your questions. If you choose a government move, they will book your shipment and let you know the exact dates the movers will come. If you choose to move yourself, the counselor can assist with recommendations and tips on how to do a personal move.

Automobile

The government may ship one Privately Owned Vehicle (POV) at their expense to your new overseas location. This is handled through your transportation office. Remember to discuss your POV needs at your initial counseling session. The shipping contractor has established a [website](#) where you can track the location of your POV through the shipping process.

Shipping Pets

Planning for shipment of your pet includes researching airline requirements and quarantine and restriction laws in your new location. You will need to ask the airlines the requirements for size, weight, number of animals, kennel construction, documentation and season of the year limitations. Occasionally, small pets can be shipped on military flights but availability and regulations are always changing as well as fees. Checking the [SDDC website](#) will provide details on shipping pets.

Many international locations have strict importation laws including extended quarantines and restrictions on breeds or types of animals that can be brought into the country. Carefully research these rules as they could impact your moving schedule. Not only do overseas locations have strict rules but many locations have restrictions on dangerous dogs as well.

Delivery of Household Goods Shipments

It is your responsibility to contact the transportation office as soon as you arrive at your new duty station. Let them know how you can be contacted, phone, mobile phone and e-mail. If you already have new quarters, they will help arrange delivery of your personal property shipments. Otherwise they will arrange for temporary storage until you have permanent housing.

Customer Satisfaction Survey

Once your personal property is delivered, you'll be asked to [rate the customer service](#) you received from the movers. Make sure you take the time to do this. Your feedback will make the process better for everyone.

Claims

If you have any loss or damage to your personal property you may need to file a claim. Use the front of [DD Form 1840/1840R](#) to notify the mover of any loss or damage you find at the time of delivery. If further loss or damage is discovered after the transportation provider departs, use the reverse side of the form, DD Form 1840R. You must **file DD Form 1840/1840R within 70 days of delivery**. Completing and submitting the DD Form 1840/1840R does not constitute filing a claim. A claim is separate and distinct from these forms. Your local personal property office and claims office will give you complete instructions on where and how to file DD Form 1840/1840R and your claim.

Household Goods - Shipping Pets

Pet Travel

The DOD had determined pet shipment will be limited to passengers in a permanent change of station (PCS) status only. You are limited to a maximum of two pets per Family, weighing no more than 150 pounds each including carrier. Pets are defined as *dogs and cats* only. Pet space is limited on all flights; therefore reservations will be made on a first-come, first-serve basis.

Rules for Processing Pets at the Airport

Be at the airport at least 2 hours prior to departure. Passengers on AMC flights may check-in up to 8 hours prior to departure, but retain custody of pet until 45 minutes prior to boarding. Have a leash with you so that you may exercise your pet prior to check-in and after arrival. All pets must remain in their container while in the terminal area. For safety reasons keep your pet a safe distance from other passengers. Mark your kennel with your pet's name and include your name and local or unit address and phone number. Please purchase an I.D. tag for your pet.

Pets on AMC flights will be shipped in the cargo area of the plane. A pet that can be shipped in a kennel no larger than 20" L X 16" W X 8" H may go in the passenger compartment, if pet space is available.

German law prohibits shipment of 4 dog species as well as crossbreeds of these dogs. They are the Pit Bull, the American Staffordshire Terrier, Staffordshire Bull Terrier, and Bull Terrier Breeds.

All Pet Expenses are the Responsibility of the Owner

You are responsible for obtaining all required documentation, immunization, and border clearance requirements. Be prepared to defray any associated costs. You must have a DD Form 2208, Rabies Vaccination Certificate (or civilian equivalent), and a DD Form 2209, Veterinary Health Certificate. The rabies certificate has to be 30 days old but less than 1 year. The health certificate can be no more than 10 days old prior to the flight.

Quarantine Fees -- You are now entitled to reimbursement of some of your quarantine fees if the country you are going to requires your pet to be quarantined.

Pet Containers

Pet containers must be an approved International Air transport Association container. Containers are available at most Exchange/Retail stores and in limited quantities at commercial airports. The cage must be large enough for the animal to stand up with head erect, turn around, and lie down with normal posture and body movements. Several layers of newspaper, shredded paper, or absorbent material should be placed in the bottom of the container. *Do not* use straw, hay, grass, sawdust, sand, or soil. Purchase the cage several days prior to flight to allow your pet time to become adjusted to it. Normally pets will be individually caged; however, two small animals of comparable size up to 31 pounds each that are used to cohabitation may be shipped in the same container as long as they can also stand up, turn around, and lie down with normal posture. Dogs and cats may not be placed in the same container. No collapsible or soft-shell cages will be accepted.

Pets should be fed very lightly and provided a drink of water before turn in for shipment. Some animals with snub noses may experience difficulty while flying. Please ensure your container has adequate ventilation and your pet is free of respiratory problems. If at all possible, do not ship female pets that are in heat (ESTRUS). This condition causes great distress to other pets and may result in injury. Females with suckling young and un-weaned animals cannot be accepted. Weaned puppies younger than 8 weeks old should not be shipped due to possible dehydration. A familiar article or toy in the cage may help placate the animal.

Sedation

Sedation is not advised since the effects of tranquilizers on animals at high altitudes are unpredictable. The decision to prescribe a tranquilizer for your pet should be made by your veterinarian. If you believe some form of sedation might be helpful, be sure to obtain and follow expert advice.

They must not be secured to trees, shrubbery, or any government property. If you secure your animal in a common area the chain or tether will be no longer than four feet. Provide proper shelter from the weather when housing animals outdoors. The shelter shall be a moisture-proof and windproof structure. The size must accommodate the entire body of the pet to allow it to stand up, turn around, and allow retention of body heat. The shelter must be made of durable material with a solid floor raised at least two inches from the ground. The entrance shall be covered by a flexible windproof material, self-closing swinging door, or wind baffle. Animals kept outdoors must be provided shelter, fresh water, and food. Education - Local Schools

Choosing the right school for their children is a priority for military families. This article describes excellent resources for your use in planning for your child's educational needs. Parents can find current information about public, charter and private schools by using the tools below:

1. How do I choose a good school?

[Choosing a School for Your Child](#) is a U.S. Department of Education publication that will help families identify what is important in selecting a school.

[The School Visit: What to Look For, What to Ask](#) Whether you are choosing a school for the first time, or because you are in transition, this site will provide you with information about what to do and what to ask.

2. What schools are in my area (or in the area where I may move), and how good are they?

Several high quality commercial tools are available to assist in making decisions about which school to choose for your child. Listed below are these website tools along with information on how you access the information and what type of information each site provides.

Both [Great Schools](#) and [School Matters](#) provide a wealth of information for parents:

- School contact information
- Distance from zip code (provide the installation zip code, or the zip code of the area where you will be living)
- Public, private or charter school designation
- Student/teacher ratios
- Free and reduced school lunch program (an estimate of economic disadvantage)
- Great Schools provides a rating of schools and a parent comment section
- Percentage of students meeting or exceeding the state standards in math, reading and language arts
- Teachers - average number of years teaching experience, % of first year teachers on the staff
- Students: Average percentage of students absent from school for more than 15 days
- Ethnic breakdown and percent of students with English as a second language
- School Matters provides college prep scores (PSAT, SAT, ACT test scores)-for high schools only
- Great Schools also provides parents the ability to rate the schools and make comments on the schools.

For both sites, the user must enter the State and zip code to find schools in the area.

[SchoolQuest](#) was developed by the [Military Child Education Coalition](#) to help military families select schools. SchoolQuest also offers an Online Library that provides resources for families in transition. At this time, the SchoolQuest data base covers 99 military installations. The Military Child Education Coalition also provides a [data base of information](#) on each State's educational system.

[The School Report Tool](#) is available from Military OneSource that list names and locations of public, public charter, private, virtual and home schooling choices around major installations. [Charter Schools](#) are nonsectarian public schools of choice that operate with freedom from many of the regulations that apply to traditional public schools. Use this site to find one in your area.

3. How can I help plan for a successful transition in this new school and for my child's school career?

Parents often want to know about the availability of extra curricular activities and sports, or the availability of advanced classes. For these questions, it is best to contact the schools directly. It is important to ask the right questions. The following resources can help with these questions and others.

The [Toolkit for Parents](#) was developed by the Department of Defense, especially for Military Families. This 85 page booklet walks parents through preparing for the move and the first two weeks of school....what to ask, what to take, etc..

The [Military Impacted Association](#) has [checklists](#) available for military kids who are leaving or entering a new school.

The Military Child Education Coalition has a [checklist for transferring students](#) that will be helpful. Additionally, through [SchoolQuest](#), MCEC provides parents with the ability to develop a profile for each of their children, which then will provide them with a report on issues related to transferring to a new school district.

4. Question? What happens if I need help during the school year?

During the school year, there are always questions that parents have, such as "What is the best way to help with homework?" or "What if my child needs to see a counselor because my spouse is deployed?" Military OneSource helps with these questions and has 24/7 access. You can call them at 1-800-342-9647, connect to them at the website [Military OneSource](#), or [e-mail a consultant](#).

Education - Local Schools/Overseas

Overseas Schools -- What You Should Know

Moving your family from one installation to another in the U.S. can be challenging enough; but moving your family overseas presents an even more complex situation. One of the most important challenges can be summed up by this question, "Where are my children going to go to school?"

This article will provide resources to help guide military families through the many questions and decisions regarding local schools abroad.

Where do I start?

Start with the information on your new installation. Visit [Plan My Move](#) and review the installation's Education - Overview article. All of the overseas installations have dedicated a portion of the Education Overview to discussing the education options available in the local community as well as the DoD schools located on the installation, if available. Most installations overseas that allow accompanied family travel have one or more DoD schools.

What is the difference between a DoD school and an international or national school?

[DoDEA](#) is the Department of Defense Education Activity. DoDEA operates DoD schools in 12 foreign countries, Guam and Puerto Rico. All DoDEA schools are fully accredited by U.S. accreditation agencies and maintain high academic standards with well rounded educational programs.

In addition to DoDEA, the [U.S. Department of State's Office of Overseas Schools](#) mission is to promote quality educational opportunities for dependents of American citizens overseas at the elementary and secondary level. If a DoD school is not available on your installation there may be a school in the local community that is an American-Sponsored Elementary and Secondary School.

International schools are English-language schools whereas National schools are schools where courses are taught in the native language. The curriculum and grading system of an International school tends to be similar to the traditional American education system. This is a consideration if your family will be returning to the U.S. prior to your child or children graduating high school. Remember, when choosing a school it is best to try to match the school with your child's needs and expectations.

Where can I find a list of International schools in the country where my family is moving?

The Internet can be an excellent resource for finding International Schools overseas. You can find a complete directory of overseas schools on the [International Schools Services' website](#).

In addition, the [World Wide Schools](#) website is an excellent resource. From the homepage you can select the country. Once you have done this, a list of schools will appear and you can then choose which one you are interested in researching. All of the information appearing on this website is provided by the schools directly. Some of the information you may find on a school includes: a background summary about the school, the school's address, phone number, website, and even the email address of the director of the school. This information should be explored so that you can make comparisons with other International schools in the area to determine the best place for your child/children.

How do I decide what school is best for my child?

This process is much the same as it would be in the U.S. You may not have as many choices but it is important to make a list of possible schools and then begin to ask around. This is a daunting task since it is likely that there will be a language barrier. However, talk to the Relocation Personnel in the Family Center and your sponsor at your new installation who may be able to put you in touch with other families with children around the same age as your child/children. Always contact the school directly and ask for references.

Once you have narrowed down your options, interview the school or schools directly. This is best done in person, if possible. Ask about: attendance, atmosphere, curriculum; grading system, tuition, accreditations, the staff and administration; as well as other practical details such as, does the school provide meals, what types of extra curricular programs are available, is there transportation, holidays and schedule, sports programs, before and after school care programs, and how is the facility maintained.

Now that I have chosen a school, how do I successfully facilitate the transition for my child?

A successful transition should be a priority during planning the move and once the move has been completed. The more knowledge you provide your child with the more confident he/she will feel once he/she arrives at the new school. Allow your child to be a part of the decision making process, if he/she is old enough, and take his/her opinions into account.

MilitaryStudent.org provides several valuable tools to facilitate the transition process. Although many of these tools are not geared specifically to an international move the resources provided do apply to any military student transitioning to a new school in the U.S. or overseas.

Employment - Overview

Spouse Career Advancement Initiative

The Military Spouse Career Advancement Initiative is designed to advance military spouses into portable careers by providing them with education and training in high-growth, high-demand occupations. Career Advancement Accounts, also known as CAAs, are flexible education funding accounts to pay for expenses directly related to post-secondary education and training, including tuition, fees, books, equipment, and credentialing and licensing fees necessary for portable careers. High-growth industries include financial services, education, healthcare, information technology and construction. High-demand occupations can be found in human resources, hospitality, homeland security and business administration.

The Department of Labor (DOL) and the Department of Defense (DoD) are jointly funding this demonstration in eight states (California, Colorado, Florida, Georgia, Hawaii, Maine, North Carolina, and Washington) targeting 18 military installations. Voluntary Education Centers and One-Stop Career Centers are collaboratively providing career counseling, guidance and assessments to support military spouse career and education choices.

CAAs, are self-managed accounts that must be used with approved local education and training institutions. CAA funds must be used for expenses directly related to career preparation. There is a limited amount of funds available in the CAA demonstration. The maximum amount of the CAA demonstration is \$3,000 for one year. The accounts may be renewed for one additional year, for a total two-year account amount of up to \$6,000 per spouse. Call Military OneSource at 1-800-342-9647 or visit <http://caa.milspouse.org/> for more information.

Financial Assistance

Cost of Living

Fayetteville and the surrounding communities are considered to be a high cost living areas. Soldiers and their families are often surprised by the initial outlay of dollars required to get established in the community. Waiting time for government quarters will usually average from 6 to 18 months, depending on the family size and needs, therefore, families are required to rent a temporary house or apartment until they can obtain quarters. Area rental agencies usually require a deposit equal to one month's rent and the first month's rent up front. Sometimes they also require the last month's rent up front. Short term leasing for housing in the Fayetteville and surrounding are is critical at this time.

Car Insurance

In North Carolina it is mandatory to have car insurance. The minimum amount of liability insurance required is \$30,000 for single injury, \$60,000 for medical protection and \$25,000 for property damage.

Sgt I. Mike's Neighborhood presents "Kids Have Feelings, Too"

Two children puppets explore their feelings to learn how to deal with the deployment of their parents. Both children have to deal with emotions on opposite ends of the scale. "Rachel's" dad has just deployed and she is angry because her best friend's mom has just come back home from a one year deployment. Rachel is a bit wary and nervous, especially because this is the first deployment she has gone through. She asks for advice from the children in the audience, who are able to help her to understand more of what to expect. Then, there is "Tommy", a year older and somewhat more mature, who has been through the deployment process and now understands some of the emotions to look for and can offer some good advice, especially before the reunion. Even though he is mature he still has to deal with some emotions after the reunion and the understanding that you have to be patient.

Health Care - Overview

Moving With TRICARE

Your [TRICARE](#) coverage is completely portable—meaning it moves with you. You're covered worldwide—both in transit to your new duty location and once you arrive—but depending on where you go you may use a different TRICARE health plan option. Additionally, you may have different steps depending on which health plan option you are using now.

When Enrolled in a TRICARE Prime Option

The TRICARE Prime options include TRICARE Prime and TRICARE Prime Remote in the United States, and TRICARE Prime Overseas and TRICARE Global Remote Overseas in regions outside of the United States. Follow these simple steps to ensure you have no break in coverage when you move.

1. Do not disenroll from your TRICARE Prime option before you move.
2. Once you arrive at your new location, update your personal information in the [Defense Enrollment Eligibility Reporting System \(DEERS\)](#) immediately.
3. Select a new primary care manager (PCM), when moving within the same region or submit a new Prime enrollment form within 30 days if you're moving to a new region.

Where you are moving will determine which Prime option you will enroll in.

Prime Options in the United States

TRICARE Prime

TRICARE Prime is offered in Prime service areas—geographic areas typically located around a military treatment facility—throughout the country.

- North Region [Health Net Federal Services, Inc.](#), 1-877-TRICARE (1-877-874 2273)

- West Region [TriWest Healthcare Alliance](#) 1-888-TRIWEST (1-888-874-9378)

If you move to a new Prime service area, transfer your enrollment by submitting a TRICARE Prime Enrollment and PCM Change Form to your regional contractor. Be sure to include all family members who wish to use Prime on the form.

TRICARE Prime Remote

In non-Prime service areas, TRICARE offers TRICARE Prime Remote. To enroll, submit a TRICARE Prime Enrollment and PCM Change Form to your regional contractor. Any TRICARE-eligible family members living with you in a TRICARE Prime Remote area can enroll in TRICARE Prime Remote for Active Duty Family Members. Be sure to include them on the enrollment form.

If you move to an area in which TRICARE Prime Overseas is offered, transfer your enrollment by submitting a TRICARE Prime Enrollment Form to the nearest TRICARE Service Center. Command-sponsored family members who reside with you are eligible for TRICARE Prime Overseas. Be sure to include all family members who wish to use TRICARE Prime Overseas on the form.

TRICARE Global Remote Overseas

TRICARE Global Remote Overseas is a Prime option offered in designated remote overseas locations. If you move to an area in which TRICARE Global Remote Overseas is offered, you and any authorized family members living with you may enroll by submitting a TRICARE Prime Enrollment Form to the nearest TRICARE Service Center.

Before you move to another overseas area or to an area within the United States, contact the nearest TRICARE Service Center. Then, when you arrive in your new area, transfer your enrollment.

When Using TRICARE Standard and Extra

TRICARE Standard and Extra are available to family members only. Active duty service members are required to enroll in one of the Prime options described above.

TRICARE Standard and Extra are available throughout the United States and enrollment is not required. Any active duty family member who is registered in DEERS may use these programs by seeing any network or non-network providers that are authorized by TRICARE. In areas outside of the United States, active duty family members who don't want to use a Prime option may use TRICARE Standard Overseas by seeing qualified host nation provider.

If you're already using TRICARE Standard and Extra, moving is easy.

1. Once you arrive at your new location, update your personal information in the Defense Enrollment Eligibility Reporting System (DEERS) immediately.
2. Then, find TRICARE-authorized providers in your new area.

Here are a few things to remember about using TRICARE Standard and Extra in a new region

- In the U.S.: Visit your new regional contractor's Web site for a list of providers. Remember, if you see network providers, you'll be using the Extra option and pay lower copayments.
- Outside of the U.S.: Contact your TRICARE Service Center for help locating a qualified host nation provider. The TRICARE Extra option is not available in overseas areas.
- If you move to a new region, you'll have a new claims address for submitting your TRICARE claims.
- Learn your new region's prior authorization requirements because these requirements can differ by region.

When Using TRICARE For Life

TRICARE For Life—TRICARE's coverage for those who are eligible for Medicare—requires no enrollment and you'll have a smooth transition when you move. [TRICARE for Life](#) contact information: WPS TRICARE For Life, P.O. Box 7889, Madison, WI 53707-7889; 1-866-773-0404; TDD 1-866-773-0405

- Once you arrive at your new location, update your personal information in the Defense Enrollment Eligibility Reporting System (DEERS) immediately.
- Find Medicare providers in your new area.

If you move overseas, your TRICARE For Life coverage may change depending on where you move. In U.S. Territories such as Guam, Puerto Rico and the U.S. Virgin Islands, TRICARE For Life coverage works the same as the stateside program. But, in all other overseas locations, TRICARE For Life Overseas works differently because Medicare does not provide coverage in most overseas locations. Therefore, TRICARE is the primary payer. You can get care from any host nation provider and you will be responsible for TRICARE deductibles and cost shares.

Contact the TRICARE Area Office for the overseas area where you are moving or the nearest American Embassy Health Unit for assistance finding a host nation provider.

Getting Care Along the Way

- Routine Medical and Dental Care—Get it before you go.

Before you move, make sure you've received any routine medical or dental care you think you might need during the time you'll be traveling. Or, delay the care until you get to your new duty location.

- Emergency Care in the United States—Call 911 or go to the nearest emergency room.

TRICARE defines emergency care as medical services provided for a sudden or unexpected medical or psychiatric condition, or the sudden worsening of a chronic (ongoing) condition that is threatening to life, limb, or sight and needs immediate medical treatment, or which has painful symptoms that need immediate relief to stop suffering. If you're traveling near a military treatment facility (MTF), you should go to the MTF or military dental treatment facility for emergency services. If you are hospitalized in a civilian facility for more than 24 hours, contact your regional contractor

- Urgent care in the United States—Coordinate with your PCM and/or regional contractor

TRICARE defines urgent care as medical care for a condition that will not result in disability or death if not treated immediately but should be treated within 24 hours to avoid further complications. If you are in a Prime program, you must coordinate urgent care with your primary care manager and/or regional contractor before receiving care. If you are in TRICARE Standard and Extra or TRICARE For Life, you can receive care as you normally would. You should, however, contact your contractor as soon as possible to coordinate any prior authorizations that are needed.

- Emergency or Urgent care Overseas—Contact closest TRICARE Area Office or TRICARE Global Remote Call Center.

You don't need prior authorization for emergency or urgent care but the TRICARE Area Office or TRICARE Global Remote Call Center will help you find the best care available in the overseas area in which you are traveling.

Filling Prescriptions on the Road

You should have all your prescriptions filled before you leave, but if you need a prescription filled while you're traveling in the United States, you have several options:

- If near an MTF, fill the prescription at the MTF pharmacy.
- Find the closest TRICARE network pharmacy.
- If a network pharmacy is not available, you can visit a non-network pharmacy. In this case, you may have to pay up front for your medications and file a claim with Express Scripts, Inc., for reimbursement. For more details, visit the [TRICARE web site](#)
- The mail-order option is not recommended for a prescription you need right away, but if you'll be traveling for a long time, you can arrange for any regular prescriptions to be filled via the mail-order pharmacy.

Your pharmacy coverage is limited overseas:

- TRICARE network pharmacies are only located in the United States, Puerto Rico, Guam and the U.S. Virgin Islands. You can have prescriptions filled at host-nation pharmacies, if necessary. Host-nation pharmacies are treated the same as non-network pharmacies. If you have prescriptions filled at a host-nation pharmacy, you should expect to pay for the total amount up front and file a claim with Wisconsin Physicians Service for partial reimbursement. To learn more about pharmacy claims, visit the [TRICARE web site](#).
- To use the mail-order pharmacy overseas, the prescription must be from a U.S. licensed provider and you must have an APO or FPO address.

If You Have Questions

Your regional contractors and TRICARE Area Offices are available to answer your questions. These offices are listed above. Find even more information about moving, updating DEERS, the TRICARE regions and much more at the [TRICARE web site](#).

Fort Bragg's Dental Services provide examinations, treatment, and consultations for active duty personnel. Retired personnel and their family members will receive care on an emergency and space available basis only. Active duty family members eligible for the TRICARE Family Member Dental Plan will receive care on an emergency basis only.

Health Care - Special Needs

Exceptional Family Member Program

The [Exceptional Family Member Program](#) (EFMP) is mandatory for all family members who have been identified with a special medical or educational need. Enrolling in the EFMP ensures that the family member's medical needs will be considered during the assignment coordination process.

Military Treatment Facility

The clinics and services available at [Military Treatment Facilities](#) vary by location. Before you move, identify the MTF that will serve you, visit the MTF's website to learn about the clinics and services available and to get relevant contact information.

Moving to a New TRICARE Region

If you anticipate a move to another [TRICARE region](#), work with your local TRICARE Service Center (TSC) or case manager before your move to ensure the transition is as smooth as possible. On arrival at the new duty location, your sponsor should contact the Beneficiary Counseling and Assistance Coordinator (BCAC) or TSC to ensure the transition plans are in place and to obtain authorizations for TRICARE [Extended Care Health Option](#) (ECHO) services, if applicable.

Beneficiary Counseling and Assistance Coordinator (BCAC)

All TRICARE Regional Offices and most MTFs are staffed with [BCACs](#) (formerly known as Health Benefits Advisors.) [BCACs](#) provide information, guidance and assistance on benefit options, TRICARE Prime enrollment, special authorizations, status of claims and eligibility, plus assistance with referrals and appointments. If you or your family member has a more severe medical need, contact your assigned [case manager](#).

Case Management

Case management involves a team of health care professionals who help you and your family to find solutions to complex health problems. It is important to inform your case manager if you are moving as he/she will connect you with the case manager at your new location.

Extended Care Health Option (ECHO)

TRICARE [ECHO](#) provides financial assistance to beneficiaries of active duty service members who qualify based on specific mental or physical disabilities. ECHO offers an integrated set of services and supplies beyond the basic TRICARE program. ECHO is administered by regional contractors in the TRICARE North, South, and West Regions and by TRICARE Regional Offices in overseas locations.

Transporting Medical Equipment

Your [Installation Transportation Office](#) has special procedures to follow for the transportation of medical equipment that is necessary for medical treatment required by the sponsor or family member. Some types of medical equipment may be shipped in the same manner as Professional Books, Papers, and Equipment (PBP&E).

Federal and State Health Care Programs

Medicaid - [Medicaid](#) pays for medical assistance for certain individuals and families with low incomes and resources. State Medicaid programs are usually administered by departments of social service or departments of medical assistance.

Supplemental Security Income (SSI) - [SSI](#) is a cash assistance program intended to meet basic needs for food, clothing and shelter for those who are aged, blind or disabled. It provides cash to meet basic needs for food, clothing, and shelter. Families must reapply upon each move to another state.

Title V of the Social Security Act - Many states have services for children with special health care needs that are funded by the Maternal and Child Health Services Block Grant, or [Title V](#). State departments of health web sites and local health departments will provide information on state health benefits for children with special health care needs. The Maternal and Child Health Bureaus' web site has Title V information organized by State that provide you with [Title V points of](#)

[contact](#) and other pertinent information.

Other Important Resources

Debt Collection Assistance Officer (DCAO) - TRICARE has a [DCAO](#) assigned to TRICARE Regional Offices and MTFs worldwide to help beneficiaries understand and get assistance with debt collection problems related to TRICARE. Individuals who have received a notice from a collection agency or a negative credit report because of a medical or dental bill should be referred to the nearest [DCAO](#).

Family Voices - [Family Voices](#) is a national, grassroots clearinghouse for information and education concerning the health care of children with special health needs. Family Voices also has [State points of contacts](#) with useful links to State programs and organizations.

Installation Specific Information

Exceptional Family Member Program (EFMP)

The EFMP is a Department of the Army program designed to assist family members who have special needs. Army Regulation (AR) 608-75, requires the Army to carefully consider the availability of facilities to care for Exceptional Family Members in the deployment location. It also requires the enrollment in the EFMP.

All EFMP screening procedures are performed by the EFMP Screening Clinic located in the Womack Army Medical Center.

Education - Special Education/EIS

Educational and Developmental Intervention Services

The Department of Defense provides services to children with developmental delays and disabilities according to the Individual with Disabilities Education Act (IDEA) . Eligibility for services is determined according to procedures outlined in DoD Instruction 1342.12, Provision of Early Intervention and Special Education Services to Eligible DoD Dependents, April 11, 2005

Infants and Toddlers (Birth to 3 years of age)

The Educational and Developmental Intervention Services (EDIS), a division of the Army military hospital, provides services to young children who meet the identified criterion for those services. The children's families must meet the housing requirements for their children to attend a Department of Defense stateside school. The EDIS teams, with Early Childhood Special Educators and multi-disciplinary allied health professionals, assist families of infants and toddlers with developmental delays to achieve goals that enhance functional independence and support school readiness. EDIS provides services in the child's natural environment (home, childcare center, etc.), and embedded in family routines.

School Age (3-21 years)

The Fort Bragg Dependents Schools provides special education to children from 3 through 21 years of age who meet the housing eligibility requirements for attending a stateside Department of Defense (DDESS) school and meet the Department of Defense criteria for special education services. Services are provided to students with all types and levels of disabilities within a variety of settings.

Preschool children with disabilities may attend their neighborhood school and participate in the preschool program that serves typically developing 4 year olds, participate in a preschool classroom staffed by dually certified teachers with their typically developing peers, and in a more restrictive preschool classroom only for students with disabilities. Based on individual need, students may be served from one to five days per week from less than one hour per day to six hours per day.

Due to the small nature of the school system and geographical location, there may be some specialized services for students that may have to be contracted out to the local public school or another agency. There has been some difficulty at times finding some specific services, such as with a vision specialist, to provide services in this area.

Four Year Old Preschool Program

Fort Bragg Schools provides a universal four year old preschool program for all children who meet the housing requirement for attending the Fort Bragg Schools and turn four years of age on or before the designated date of the current school year. This is a half day preschool program provided at no cost to the parents. Questions about this program can be directed to the individual schools; Bowley Elementary School 910-907-0202, Butner Elementary School 910-907-0203, Devers Elementary School 910-907-0204, Holbrook Elementary School 910-907-0205, McNair Elementary School 910-907-0207, Murray Elementary School 910-907-0208, Pope Elementary School 910-907-0209, or the Community Superintendents Office 910-907-0200.

Special Education Records

Parents of children enrolled in special education should hand-carry, copies of all pertinent school and medical documents to include their children's Individualized Education Program (IEP) and current testing and evaluation reports to provide to the new school.

If you have a child who requires a specialized service and/or equipment (for example large print books, an FM trainer or Braille services), it is recommended that you call the Special Education Programs Office located at the Community Superintendent's Office at 910-907-0232 to obtain specific information about services and to help facilitate a smooth transition to Fort Bragg Schools.

Exceptional Family Member Program

The [Exceptional Family Member Program](#) (EFMP) is mandatory for all family members who have been identified with a special medical or educational need. Enrolling in the EFMP ensures that the family member's medical needs will be considered during the assignment coordination process.

Children from Birth to Three Years of Age

The Individuals with Disabilities Education Act (IDEA) requires all States and territories to provide [early intervention services](#) to children from birth to age three who are developmentally delayed, or who are at high risk of being developmentally delayed. Early intervention services may be provided by local school districts or health departments. There is no common name across States for the programs, but you may hear them referred to as Part C programs (because Part C is the section of the IDEA that pertains to early intervention).

The [National Early Childhood Technical Assistance Center](#) provides a list of State Part C directors and funded programs at their web site. [Military OneSource](#) can identify local early intervention programs for you.

- Parents of children who receive early intervention services should hand-carry a copy of the Individual Family Service Plan (IFSP) and most current evaluation reports to the new location.

Children from 3 through 21 Years of Age

The Individuals with Disabilities Education Act (IDEA) requires all States and Territories to provide [special education services](#) to children who are from 3 through 21 year of age. Each local school district has a special education director, and each school should have a case study committee or school based committee (terms differ) that attends to special education students' needs.

Parents of children receiving special education and related services should hand-carry all pertinent school and medical documents to include their children's Individualized Education Program (IEP) and current testing and evaluation reports to the new school.

The IDEA requires that if a child transfers to a district in the same state, the receiving school must provide comparable services to those in the child's IEP from the sending district's until the new school develops and implements a new IEP. If a child transfers to another State, the receiving district must provide comparable services to those in the child's IEP from the sending district until the receiving district completes an evaluation and creates a new IEP.

Others who can help you:

- **Parent Training and Information Centers** Each state is home to at least one Parent Training and Information Center (PTI). PTIs serve families of children and young adults from birth to age 22 with all disabilities: physical, cognitive, emotional, and learning. They help families obtain appropriate education and services for their children with disabilities; work to improve education results for all children; train and inform parents and professionals on a variety of topics; resolve problems between families and schools or other agencies; and connect children with disabilities to community resources that address their needs. [The Technical Assistance Alliance for Parent Centers](#) provides addresses and phone number of the centers in your state.

- STOMP (Specialized Training of Military Parents) is a federally funded Parent Training and Information (PTI) Center established to assist military families who have children with special education or health needs. The staff of the [STOMP Project](#) are parents of children who have disabilities and have experience in raising their children in military communities and traveling with their spouses to different locations.
